WORKSHOP DESCRIPTION

This half day workshop is designed for building officials, home inspectors, contractors, architects and residential deck designers. The goal of this workshop is to provide attendees with a detailed review of the structural code requirements based on the International Residential Code, International Building Code and the National Design Specification (NDS) for Wood Construction guidelines, followed by an overview of Simpson Strong-Tie products, developed to satisfy those requirements and do so at the lowest installed cost.

- ◆ 4 Professional Development Hours awarded
- ◆ Continued Educational Units (CEU) for meeting the workshop completion requirements.
- ◆ AIBD-Continuing Education Credits awarded
