Welcome back! We want to thank you for putting your trust in Four County Family Eye Care Center by allowing us to continue to serve you and your family. We'd like to ask you to please update our information on you by filling out our Welcome to the Office form that tells us about you, and provides us with important diagnostic information. Your eye examination will be expedited if you come to your appointment with this form completed. Please remember to include an up-to-date list of all of the medications that you are taking. We also would very much appreciate it if you would bring with you all of the eyeglasses, sunglasses, contacts lenses, and contact lens prescriptions (and/or contact lens boxes) that you are currently using. Finally, we'll need to see your health insurance and vision insurance cards or forms so that we can properly record your personal ID numbers and coverage information to expedite the claims process for you.

We are highly recommending that you avail yourself of a relatively new technology called digital retinal photography. We think you'll appreciate how valuable these photographs are in the diagnosis of many types of ocular diseases. This technology is available to you at an additional cost of \$35.00. You might want to arrange to have someone drive you to and from our office, since your eyes will be dilated for this test. You can expect to have blurred near vision and light sensitivity for a few hours following the routine dilated retinal examination that we will perform, as well.

Thanks again for trusting your ocular health and visual well-being to us at Four County Family Eye Care Center. We very much look forward to seeing you on:

If, for any reason, you cannot keep this appointment, please give us 24 hours notice so that we can offer your appointment time to someone else who may need it.

Sincerely,

Dr. Michael S. Cohen
Optometric Physician
